

DUONS

COMMERCIAL & INDUSTRIAL
ELECTRONIC REPAIR SPECIALISTS

Est. 2001

25 + Years
Experience

PLAN. MAINTAIN. DETECT.

Extend equipment life through planned repair and maintenance strategies.

KEEP OPERATIONS RUNNING
REDUCE FAILURE RISK

-  Reduce unexpected breakdowns
-  Extend equipment lifecycle
-  Avoid unnecessary replacement

PREVENTATIVE MAINTENANCE CAPABILITY

-  **REPAIR DRIVEN MAINTENANCE**
Preventative maintenance built around the repair of industrial electronic boards and modules.
-  **PLANNED TESTING & REPAIR**
Scheduled testing and repair of electronic assemblies removed from equipment to identify faults before failure occurs.

-  **EARLY FAULT DETECTION**
Identifying degradation and failure risks during repair assessment and testing processes.
-  **COMPONENT HEALTH AUDIT & LIFECYCLE EXTENSION**
Structured assessment of electronic assemblies to identify degradation and support lifecycle extension.
